ZEESHAN AHMAD

UI/UX Designer | Product Designer

Islamabad, Pakistan | +92 336 0999166 | z.khanzk7@gmail.com | Portfolio: behance.net/zeeshanahmad66

PROFESSIONAL SUMMARY

UI/UX Designer with 5+ years of experience leading end-to-end design of B2B SaaS, government and consumer health products for clients in Pakistan and the United States. Lead designer on 8 products and 1,000+ screens, including the Sindh Ombudsman complaint system that replaced a 30-year-old manual process and cut complaint registration to about 3 minutes. Skilled in user research, information architecture, Figma prototyping, scalable design systems, usability testing, developer handoff and design QA.

CORE SKILLS

UX Research: User Interviews, Usability Testing, UAT, Stakeholder Workshops, Diary Studies, Competitive Benchmarking, UX Audits, Heuristic Reviews, Personas, User Journeys

UX/UI Design: Information Architecture, User Flows, Wireframing, Prototyping, Interaction Design, Responsive Design (5 Breakpoints), Mobile & Tablet UI, Dashboards, UX Writing, Accessibility & Contrast

Design Systems: Scalable Component Libraries, Design Tokens, MUI-Based Components, Bilingual LTR/RTL Systems, Typography Systems, Handoff, Design QA

Tools: Figma (Dev Mode, FigJam, Figma Make), Adobe XD, Adobe Illustrator, Adobe Photoshop, Miro, Mural, Jira, Confluence, AI Design Tools (Claude Design, Figma AI)

Visual Design: Brand Identity, Logo Design, Marketing & Social Media Graphics

PROFESSIONAL EXPERIENCE

UI/UX Designer | DPL Private Limited, Islamabad **Sep 2023 – Present**

- Lead designer on 8 client products (B2B SaaS, government and US health-tech), owning design from discovery to launch across 1,000+ web, mobile and tablet screens.
- Built scalable design systems for small to large products, keeping designs consistent and letting the team apply changes across a whole product in one click.
- Planned and ran moderated usability tests with 35+ participants across projects, and worked directly with CEOs, CTOs, product owners, business analysts, developers and QA through Jira and Confluence.
- Mentored 2 design interns; received DPL's "Breakout Star" award for outstanding overall performance.

Sindh Ombudsman – Complaint Management System (Sindh Government) — *10+ modules | 150+ screens*

- Designed the first digital complaint system for the Sindh Ombudsman, replacing a 30-year-old paper-based process now used by thousands of citizens across regional offices.
- Cut complaint registration to about 3 minutes through stepped registration, lifecycle steppers, status badges and faster CNIC/complaint search.
- Designed the citizen web, mobile and tablet apps plus internal case management, including Hearing/Cause List and bulk case-disposal modules.

NATJAN – Facilities Management Platform (US client) — *Web, iOS/Android, tablet | 300+ screens*

- Designed work orders, dispatches, invoices, KPI dashboards, maps and offline states across 5 responsive breakpoints.
- Simplified the QuickPay fee opt-in by 2 clicks with clearer copy, and redesigned tab navigation after Area Manager testing to make better use of screen space.

Rahbar Global Mobility – Visa Processing CRM — *8–10 modules | 100+ screens*

- Moved visa operations off spreadsheets and paper registers into role-based work queues, stage timelines and batch tracking; the client fully retired the manual process.

SMEDA – ERA/EPMIS (Government of Pakistan) — *Web & mobile | 100+ screens*

- Built a bilingual English/Urdu (LTR/RTL) component library and turned long government forms into sectioned, save-as-draft flows with validation and status tracking.
- Reduced form fatigue with pre-filled SMERP profile data and a shared Urdu glossary; designed map views for field-agent verification and firm locations.

nGAGE – Employee Performance Management SaaS — *10+ modules | 100+ screens*

- Designed goals/OKRs, 360° reviews, feedback, surveys, HR analytics dashboards and an employee mobile app for 4 user roles, benchmarking Lattice, Culture Amp and BambooHR.
- Cut the feedback journey from 3 clicks to 1 and shortened the annual review form from 4 pages to 2, adding auto-save and a pending-actions widget.

US Health & Wellness – Miracle Morning, Nova Via, The Breath Source — *Web & mobile | 250+ screens*

- Miracle Morning (150K+ Google Play downloads): redesigned the home screen and event scheduler, and designed the founder's personal website, earning a written client testimonial.
- Nova Via: designed a calm, low-effort mental health and sobriety app for patients managing stress and depression, now used by the clinic's patients.
- The Breath Source: redesigned the full breathwork platform UI for better usability and contrast; added an "Up next" live-session card, one-tap join, local time-zone display and a shorter subscription flow.

DPL Company Website – Redesign (Internal) — *Web | Lead designer*

- Led the full redesign of DPL's company website and its design system, managing and mentoring the designers on the project.
- Introduced a two-typeface system (monospace for actions, serif for content) that helps users instantly tell buttons and tabs apart from content.

Product Designer (UX/UI) | Cricstreamer, Islamabad **Mar 2022 – Apr 2023**

- Designed a cricket streaming mobile app including live streaming, scorecards and player/team stats, from user research to high-fidelity prototypes; also created brand and social media assets.

Product Designer (UX/UI) | Workout Need, Islamabad **Aug 2021 – Apr 2022**

- Led end-to-end design of a fitness app: workout tracking, exercise library, personalised training plans and a fitness marketplace, plus brand identity and marketing graphics.

Graphic Designer | Uzair Technology, Islamabad **Apr 2021 – Jan 2022**

- Produced brand, marketing and social media designs for clients and internal campaigns.

EDUCATION

Bachelor of Science in Computer Science | Kohat University of Science & Technology **2019 – 2023**
