ZEESHAN AHMAD

Senior Product Designer | UX Strategy, Systems Thinking & AI-Assisted Design

Open to Work · Remote or On-site

Islamabad, Pakistan | +92 336 0999166 | z.khanzk7@gmail.com | Portfolio | LinkedIn | Behance

PROFESSIONAL SUMMARY

Senior Product Designer with 5+ years of experience turning complex, real-world problems into intuitive digital experiences across B2B SaaS, government and health-tech, for clients in the United States and Pakistan. Combines user research, systems thinking and strong design judgment to understand not just what users need to do, but why existing experiences get in their way. From simplifying legacy workflows to designing scalable, multi-platform products, focuses on making complex systems feel effortless. Uses AI-assisted tools to accelerate exploration and prototyping, while keeping human insight, usability and product outcomes at the centre of design.

CORE SKILLS

User Research & Usability Testing • Diary Studies & Document Analysis • UX Audits • Information Architecture • Interaction Design • Wireframing & Prototyping • Design Systems • Responsive Web, Mobile & Tablet Design • Dashboards & Data-Heavy Forms • Bilingual LTR/RTL Design • Accessibility • Developer Handoff & Design QA • AI-Assisted Design (Claude Design, Google Stitch, Figma AI) • Brand Identity

Tools: Figma (Dev Mode, FigJam, Figma Make) • Adobe XD • Adobe Illustrator • Adobe Photoshop • Jira

PROFESSIONAL EXPERIENCE

Senior UI/UX Designer — DPL *Sep 2023 – Present | Islamabad, Pakistan*

- Promoted from Junior to Senior UI/UX Designer; sole or lead designer on 12 client products across B2B SaaS, government and US health-tech, owning design from discovery to launch across 1,000+ web, mobile and tablet screens
- Designed the Sindh Ombudsman's first digital complaint system, replacing a 30-year-old paper process: the system handled 18,000+ complaints in its first 9 months (vs. 7–8K a year on paper), and average resolution fell from 120 to 50 days; now deployed in 15+ cities across Sindh
- Took part in interviews and a diary study with 8+ staff and officers (remotely), and analysed paper case files, registers and manuals to map the process into 10+ modules
- Designed NATJAN, a facilities-operations platform for a US client, as sole designer across web, mobile and tablet at 5 breakpoints; cleaned up the portal's navigation and information architecture, and designed mobile inspection flows, including ad-hoc inspections for Area Managers
- Designed Nova Life, a voice-first recovery app with patient, therapist and admin portals, from discovery to a deployed MVP in 3 months
- Cut nGAGE's feedback journey from 2 clicks to 1 (tested with employees) and shortened its annual review form from 4 pages to 2
- Built a bilingual English/Urdu (RTL) design system for SMEDA's national SME programme, and scalable design systems across products that let the team apply changes product-wide in one click
- Designed pitch proposals for prospective clients, including an app concept built around a bestselling productivity book, which the client approved
- Worked directly with CEOs, CTOs, product owners, business analysts and developers through design reviews, handoff in Figma Dev Mode and design QA
- Led the DPL company website redesign, introducing a two-typeface system (monospace for actions, serif for content); mentored design interns

Product Designer (UX/UI) — Cricstreamer *Mar 2022 – Apr 2023 | Islamabad, Pakistan*

- Designed a cricket streaming mobile app for an incubated startup, with live streaming, scorecards and player/team stats, from user research and wireframes to high-fidelity prototypes
- Created brand identity, banners and social media assets aligned with marketing campaigns

Product Designer (UX/UI) — Workout Need *Aug 2021 – Apr 2022 | Islamabad, Pakistan*

- Led end-to-end design of a fitness app for an incubated startup: workout tracking, exercise library, personalised training plans and a fitness marketplace

- Worked with product and development teams to balance user needs and business goals; designed brand identity and marketing graphics

SELECTED WORK

- **Sindh Ombudsman:** Translated staff interviews, diary studies and legacy paper records into 10+ digital modules, using frontline feedback to shape practical workflow decisions, including multi-document uploads
- **NATJAN:** Reworked navigation, information architecture and operational workflows across web, mobile and tablet, reducing the QuickPay opt-in from four clicks to three and designing inspection flows around field staff needs
- **Nova Life:** voice-first recovery app for a US recovery centre, used by 80+ patients (client-reported); patient app with AI voice check-ins, pledges and milestones, plus therapist, admin and super-admin portals
- **Miracle Morning:** redesigned the app's home screen and designed its new event scheduler flow (150K+ Google Play downloads); lead designer on founder Hal Elrod's personal website and the brand's landing, enterprise, opt-in and SAVERS Mastermind pages
- **SMEDA ERA/EPMIS:** bilingual English/Urdu SME application platform for the Government of Pakistan, 100+ screens with RTL design system and map views for field verification
- **nGAGE:** Simplified employee feedback and performance-review experiences, validating a shorter feedback journey with employees and reducing the annual review form from four pages to two
- **Rahber Global Mobility:** visa-processing CRM with role-based work queues and batch tracking that replaced spreadsheets and paper registers, 100+ screens
- **The Breath Source:** full UI redesign of a US breathwork platform across web and mobile, with live-session discovery, one-tap join and a shorter subscription flow
